SKILLS

- **Languages**: Java, JavaScript, Python, C++
- **Frameworks & Libraries**: React.JS, Node.JS, Express, HTML, CSS, Tailwind CSS
- **Tools & Platforms**: MySQL, MongoDB, Power BI, Tableau, Git, GitHub, Figma, Postman
- **Core CS Fundamentals**: DBMS, OS, CN, SQL, OOPs
- **Soft Skills**: Time Management, Leadership, Problem-Solving, Adaptability, Quick Learner

PROJECTS

Medi Care – Hospital Management System : | GitHub Aug' 25 – Oct' 25

- Developed a full-stack hospital management system supporting CRUD operations for patients, doctors, appointments, and medical records, including secure report upload & viewing
- Enhanced user experience based on feedback by adding appointment scheduling module with customizable time slots, responsive dashboard for staff, and improved form validation for accuracy
- Integrated automated email & SMS alerts for appointment reminders and daily summary reports, boosting staff efficiency by 30%
- Achieved optimized system performance with secure PHP backend, validated SQL queries, and responsive UI using HTML, CSS & JavaScript

  Tech stack: HTML, Tailwind CSS, JavaScript, PHP, MySQL

Smart Ticket – Chat Bot Online Ticketing System: | GitHub Jan' 25 – Mar' 25

- Built a Nodejs-based online ticketing system with chatbot-assisted navigation supporting event browsing, ticket booking, and secure payment handling for smooth user transactions
- Optimized backend APIs for user management, authentication, event CRUD, and booking processing
- Added intelligent chatbot responses & advanced search suggestions, boosting user engagement by 25%
- Revamped the front-end with a responsive layout, clean navigation flow, and consistent UI patterns, resulting in smoother user interactions

  Tech stack: ReactJS, JavaScript, Node.JS, MongoDB

TRAINING

Lovely Professional University – A Hands-On Approach to Data Science | Certificate Dec' 24 – Feb' 25

- Designed interactive Power BI dashboards with optimized data models, using advanced DAX measures and calculated columns to deliver actionable insights for decision-making.
- Performed data cleaning and transformation using Power Query M Language, ensuring high data accuracy, consistency, and performance optimization.
- Applied core BI concepts including table relationships, data modeling, and visualization best practices to build structured and scalable analytical reports

  Tech stack: Power BI, DAX, Power Query, Data Modeling, Data Visualization

CERTIFICATES

- Cloud Computing | NPTEL | Certificate

Sep' 24

EDUCATION

Lovely Professional University Punjab, India

Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.43*** Aug' 23 - Present

PPM Public School Jehanabad, Bihar

Intermediate; **Percentage: 83%** Jun' 21 – Apr' 22

PPS Public School Jehanabad, Bihar

Matriculation; **Percentage: 86%** Jun' 19 - Apr' 20
